

# TOP 5 DIGITAL MARKETING TRENDS OF 2022

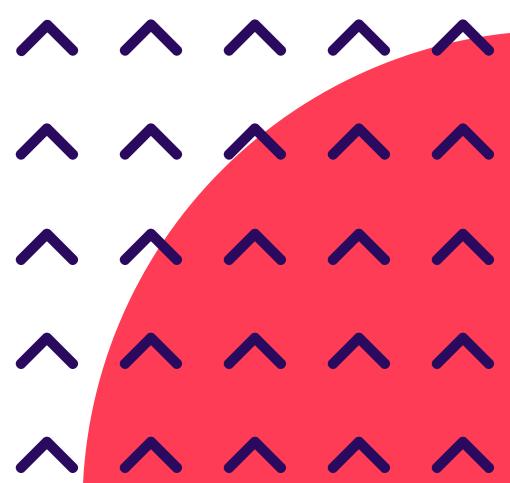

# 1. SOCIAL MEDIA SENTIMENT ANALYSIS

Influencer marketing is the most popular digital marketing strategy, but its effectiveness has recently appeared to be waning due to a trust crisis between some influencers and consumers.

This has given way to the year's most important trend: sentiment analysis.

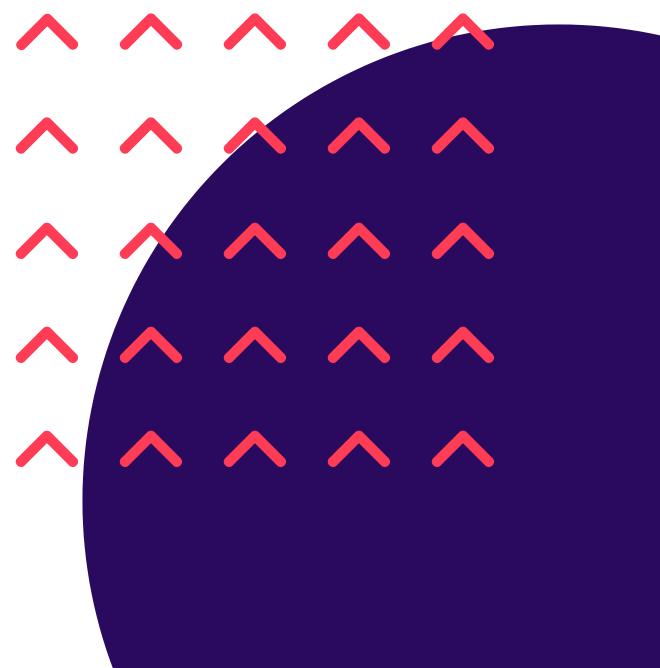

## 2. METAVERSE AND VR/ AR

With Facebook's official announcement of transforming Facebook to Meta in October 2021, a major potential breakthrough in digital media occurred.

You can start planning your brand's Metaverse strategies right away. There are a slew of augmented reality apps that can be accessed through your smartphone's camera.

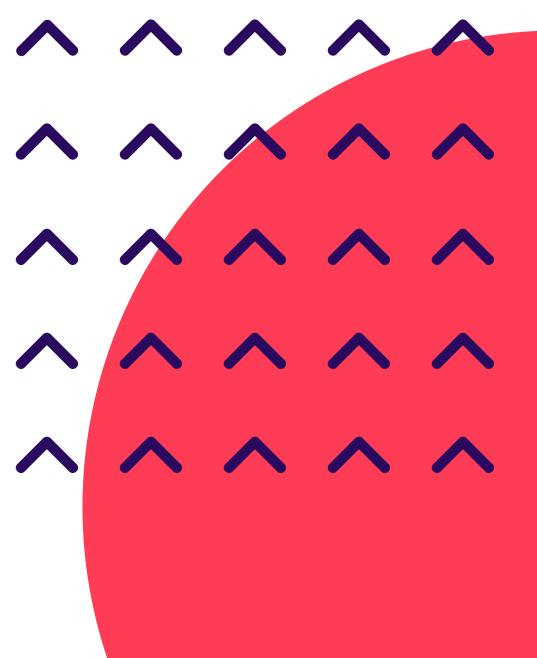

### 3. CSR ENGAGEMENT

It's past time for us to acknowledge marketing's power and influence on the environment.

This strategy is not only beneficial to society, but it also helps brands appear more human in the eyes of their target audience.

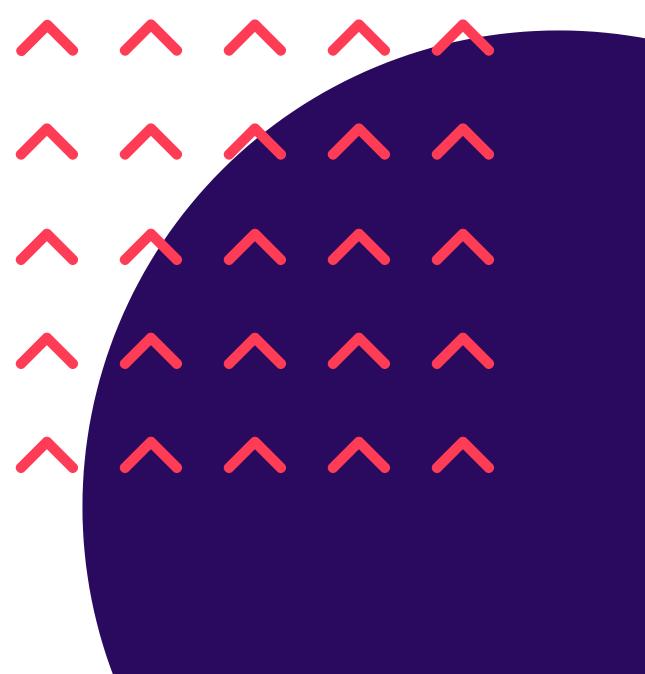

## 4. VIDEO MARKETING

People respond more quickly to video marketing, as evidenced by the popularity of TikTok videos.

Without a doubt, one of the most important digital marketing trends in 2022 will be video marketing. This year, if you haven't already, you should consider including videos in your digital marketing strategy.

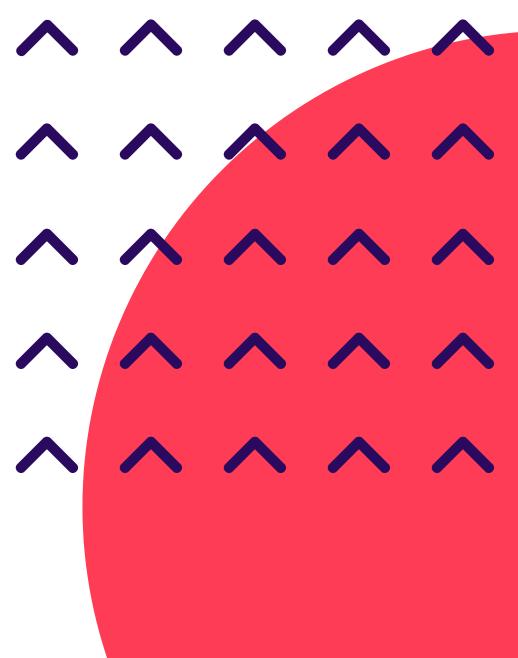

## 5. PUT MICRO-MOMENTS TO USE

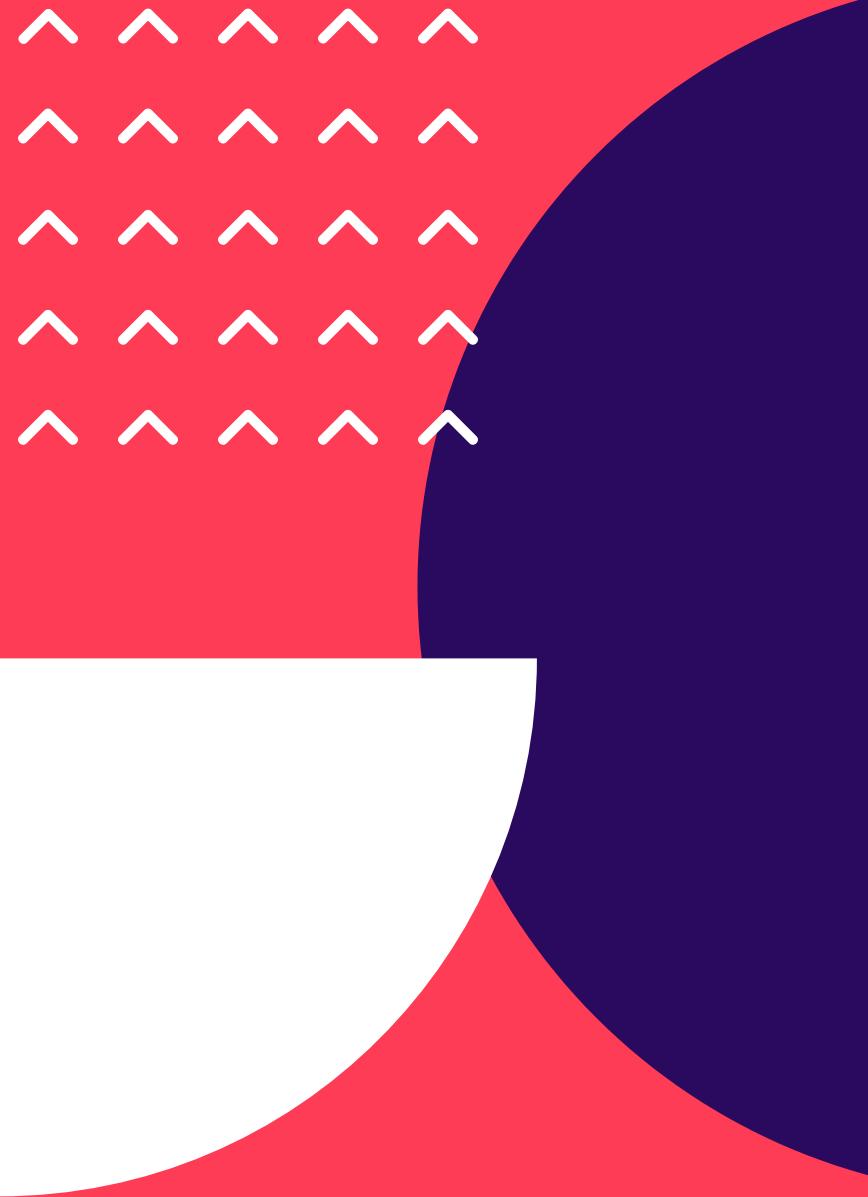

As a result of the increased use of cell phones, our attention span has dwindled. We make snap decisions about what to eat, where to go, and what to buy on the spur of the moment.

This is something to keep in mind as you plan your digital marketing strategies for 2022. Google refers to these brief moments as micro-moments.

In 2022, these top five digital marketing trends can assist you in making the most of your marketing efforts.
